Vehicle Stickers

The purpose of this vehicle sticker policy and procedure is to make Timber Greens as safe a community as possible. It is understood no matter what procedure is adopted, it will not totally keep out negative elements. Ultimately, it is the responsibility of the Members themselves to provide the final security. The policy is planned to strictly limit the issuance of stickers to automobiles domiciled in Timber Greens, and to have each sticker numbered for the purpose of identification and responsibility.

This covers the issuing of stickers and the responsibilities of the Members as well as our Community Patrol.

- A. All Member vehicles must have a current, numbered windshield sticker in order to enter through the right gate of the main grounds of Timber Greens. Member is defined in the *Master Declaration of Covenants, Conditions and Restrictions for Timber Greens*, Article I, Section 10, located on page two (2).
- B. All Members must complete the Timber Greens Community Association Automobile and Emergency Registration form:
 1. Indicating each vehicle's identification and registration as proof of address
 2. Volunteer emergency contact data
- C. The stickers are issued at the front desk in the Clubhouse.
- D. They are to be applied on the lower inside left (driver's side) of the windshield at dashboard level. This allows Community Patrol to see the sticker easily upon entering the gate.
- E. Only Member vehicles domiciled in Timber Greens for either a partial-or full-year will be issued stickers. To this end the following must be verified:
 1. Proof of vehicle registration showing a Timber Greens address
 2. A valid driver's license
 3. In the case of an out-of-state registration, a Member must offer proof the vehicle is owned by a Member and domiciled in Timber Greens for a portion of the year.
- F. New or different vehicles must go through the same process. However, a Member will need to show evidence the old vehicle sticker has been destroyed by bringing in a portion of the old sticker.
- G. All stickers have been numbered and entered into a database, so Community Patrol can identify the owner in the case of an emergency.
- H. Procedure to follow at the main entrance to Timber Greens:
 1. Stickered vehicles should enter through the right lane only.
 2. Visitor's vehicles should enter through the left lane in order to be identified.
 - a. If a Member has scheduled a service or a visit to one's residence, one should call ahead to inform Community Patrol.
 - b. If a visitor or service person attempts to enter Timber Greens without prior notification of Community Patrol, the person whom they intend to see will be called for verification.
 - c. If the visitor cannot be verified, they will be refused entrance.
 - d. Visitors with temporary residence in Timber Greens will be issued a visitor's pass for a period up to thirty (30) days, renewable for no more than thirty (30)-day increments.
 - e. Visitors who have other business at Timber Greens, such as classes or special events (golf outings or entertainers, etc.), will have to identify the purpose for gaining entrance to Timber Greens and should be verified by an official document.
 - f. In the event a vehicle has no sticker, the vehicle will be pulled to the left lane and the driver will have to present a driver's license and vehicle registration. This information will be verified in the Member database.

- I. Community Patrol will advise each visitor entering of the **20 MILE PER HOUR** speed limit and record the license tag number as well as the time entering.
- J. Failure to follow these procedures will result in Management administering the Enforcement of Timber Greens Rules and Regulations policy as defined at the end of this document.

All names and lot numbers must be provided at reservation sign-up. A table assignment may be requested but not guaranteed. Table size may be limited for special events. Members may invite a Guest who is not a Member. The Association assumes these types of events will have a waiting list after the advertised maximum number of reservations has been reached. Canceled reservations may not be given to a friend if any openings arise because reservation openings will be filled from the waiting list. The flyer will indicate a sign-up time, which will be strictly enforced.

Cancellation Policy for Regular, Standard, and Special Events

Timber Greens Management reserves the right to cancel an event that has not met the minimum reservation capacity, so as to prevent the Association a monetary loss.

Outside Events

These events may include, but are not limited to, trips to Tampa Bay Performing Arts Center, the Show Palace, and other outside events for which tickets must be purchased by Timber Greens in advance of the actual activity. This type of event is advertised via flyer, the Timber Greens website or the Community cable channel. There will be designated reservation sign-up and cancellation times. After the advertised cancellation time has expired, the Member will be charged and pay Timber Greens for the event at full price. Should the Member not be able to attend the outside event, the Member will be responsible for finding replacements and be reimbursed by the replacement.

Policy for Organizations Purchasing or Leasing Equipment

Purpose:

To establish a policy for organizations to earn more than the cost of a particular show or event in order to purchase, lease or otherwise obligate equipment that will benefit the organization and Timber Greens.

Procedures

All activities will follow the policies outlined in the reference documents.

For all organizations wishing to earn more than the cost of a particular event to purchase equipment benefitting Timber Greens, the statement in the above procedures section, Item G, of the Timber Greens Policy for Clubhouse Use applies. It states, "Except for the annual Community-wide garage sale, all Member activities are to be a not-for-profit function. Prices of the tickets are to cover all costs and expenses. The Chef and the General Manager are to be included when determining the price."

- A. These organizations will use the Timber Greens accounting procedures to maintain all funds received from Members, exclusive of the organization's dues. Each organization will have a line item in the statement of income of Timber Greens financial reports. No outside or personal checking accounts will be used. Timber Greens allows no cash transactions unless the attendees donate cash upon exiting the event.
- B. The function sheet and the budget will be completed with the General Manager not fewer than sixty (60) days before the performance date.
- C. The organization will specifically identify the equipment to be purchased in a budget submitted to the General Manager who in turn shall submit the budget to the Timber Greens Board of Directors before the end of the calendar year. This budget should include at least a written estimate of the make, model, cost, and place of purchase or acquisition.
- D. The estimated cost will be included in the cost of the admission (or tickets) and presented to the General Manager. This will be shown as a separate line-item of the budget that accompanies the function sheet. If this cost is to be generated over the span of multiple events, the amount per show will be itemized in the annual budget and each performance budget and shall be reflected in the function sheet submitted to the General Manager.
- E. The purchase price or lease of the equipment is to be generated and spent within the same calendar year. These monies will not be considered to be a profit. If the purchase or lease is not to be made within the same calendar year, the money **MUST** be designated for a specific item and purchase or lease price.
- F. If the organization decides to change the item to be purchased or leased, they will specifically identify the revised equipment to be purchased or leased in a new budget to be submitted to the General Manger, who will then submit the requested change to the Timber Greens Board of Directors. The budget will include at least a written estimate of at least the make, model, and cost.
- G. The equipment shall not be ordered, purchased, leased, delivered, or in any way confirmed until the complete cost is generated. If this is to be a combination of funds generated by an organization(s) and monies to be approved by the Timber Greens Board of Directors, then the Timber Greens Board of Directors may approve the funds at the next scheduled Board meeting prior to the equipment purchase or lease.
- H. The purchase, delivery, installation, etc. of any equipment will be at the discretion of the General Manager. Approval will be in writing prior to the purchase or lease.

Elected or appointed volunteer Members should abstain from either discussing or voting on matters where they have a personal interest. The situations considered to improperly influence an elected Member include, but are not limited to:

- D. Elected or appointed volunteer Members should always endeavor to decide all issues and disputes on the merits, not personalities.

Monies

This accounting must be signed by two persons running the event and include the number of tickets sold, total monies collected, total monies paid out, to whom the monies were paid and where the donation portion will be allotted.

Audience Comments

- D. The Golf Pro Shop controls all tee times and may fill a group if necessary.

Carts must remain at least thirty (30) feet (10 yards) from the green. Failure to comply with these rules will result in the loss of flag privileges.

Frost and Water Delay Policy and Procedures

The Golf Course Superintendent and Head Golf Professional will determine if a delay is warranted and communicate such a decision immediately to the Golf Pro Shop. Additionally, a recheck of conditions will be performed every fifteen minutes and the Golf Pro Shop will be updated accordingly

For shotgun or special events: when the course is not able to be opened on time due to water or frost conditions, tee times will be shifted downward (later) and started at the end of the delay. On these days, if necessary, the end of the tee sheets will be canceled.

On other days that have full tee sheets, tee times directly affected by the delay may be canceled and the remaining tee times resume as scheduled. On these days, every effort should be made to accommodate the golfers canceled, by doubling up all twosomes and filling in every tee time.

ENFORCEMENT OF TIMBER GREENS RULES AND REGULATIONS

The Board of Directors (BOD) of the Timber Greens Community Association has the statutory authority to enforce the governing documents and the rules and regulations of the Association. The governing documents cover deed covenants and rules and regulations and encompass the use of various amenities such as the pool, golf course, Clubhouse, tennis & pickleball courts, safety, Community Patrol, or the administering of certain other policies, which if not followed, would cause undue harm to the Community.

It is important there be an established, documented enforcement procedure that includes the process of initial violation notification, expected results, penalties for noncompliance and an appeal process that is uniformly enforced. The following is meant to establish a standard, consistent, enforcement means across all policies including architectural:

Infractions can be committed by a Member, non-Member, Member Guest or a Tenant. In all cases, the Member is fully responsible for the actions of their Guests or Tenants; therefore, the remainder of this document will refer to all these groups as Members.

Reporting an Incident

The infractions may be reported verbally or in writing through these channels:

1. Incident reports from Community Patrol
2. Reports from Golf Rangers via the Golf Pro Shop
3. Reports from Management of Clubhouse activities or the 19th Hole Bar& Grill
4. Reports to Management by Members
5. Written reports from BOD authorized Committees while administering their charters

Investigation

Each infraction will be investigated by Timber Greens Management to the fullest extent to ensure decisions are not made using hearsay, rumor, innuendoes, or third party information. When an infraction has been determined valid, it will warrant several different possible avenues of address, depending on the nature and severity of the incident. It is always the intention to solve the issue with the simplest method. Documentation of all infractions (alleged or proven), discussions, and penalties will be mailed to the Member and placed in the Member's file.

Penalties

Major Rules Infractions

In the event of a valid infraction to any Major Rules and Regulation, a Member may immediately be subject to fines up to \$100.00 per incident or a loss of specific or all privileges. Architectural infractions will follow the process as outlined below.

Architectural Infractions

In the event of a valid infraction to the ARC rules, a letter or letters will be sent to the Member and a copy of same will be placed in their file. The following defines the intent of each of the four letters:

Exception Letter **(Exhibit #1)**

This letter will be sent to Members who have made changes to their property without submitting an ARC request to have the changes authorized. If a request is not submitted, a first letter will be sent.

First Letter **(Exhibit #2)**

The violation letter will be mailed via regular mail to the Member. The letter will specifically cite the infraction, giving the Member thirty (30) days to correct the infraction and notify the Management it has been corrected.

Second Letter **(Exhibit #3)**

In the event the first letter does not achieve the expected results within the thirty (30) day period, a second letter will be mailed to the Member indicating the infraction was not corrected and allowing an additional fifteen (15) days for compliance.

Third Letter (Exhibit #4)

In the event the second letter does not achieve the expected results within the fifteen (15) day grace period, a third letter will be mailed to the Member. This letter will allow an additional fourteen (14) days to complete the infraction as fines will commence on the fifteenth day. The third letter will outline the monetary fines for non-compliance. Fines will be levied at \$100 per day with a maximum of \$1000.00.

The Member has right to appeal this decision to the Timber Greens Board of Directors.

Repeat Offender

A repeat offender is a Member who has received a letter or letters about a discrepancy and has acknowledged it is corrected. However, if in a future survey the same infraction is observed and is recorded again on a subsequent tour, as NOT being corrected, then the Member will be sent a third letter (Exhibit #4) to request the discrepancy be corrected, or a fine will be imposed.

Architectural Review Policy

The Architectural Review Committee has established parameters to ensure the Timber Greens Community maintains a high standard of conformance and appearance. As defined in this document, there is a process of communication, both verbal and written, in the attempt to achieve the proper results after infractions have occurred. This process is the same for architectural review, except for the some of the contents of the notice violation letters. As a result, examples of these letters are also contained herein as 1. First notice violation letter is (Exhibit #2), 2. Second notice violation letter is (Exhibit #3), and 3. The third notice violation letter is (Exhibit #4).

Architectural Review Request Denials

In the event a request for change is denied by either a Village Sub-Association Architectural Review Committee, and then by the Master Association Architectural Review Committee, or by the Master Association Architectural Review Committee where a Village Sub-Association has no jurisdiction, the requester has the right of appeal. The individual may appeal directly to the Board of Directors or to a committee of peers as appointed by the Timber Greens Board of Directors. The appeals committee will make recommendations to the Timber Greens Board of Directors to mutually settle the dispute. In all cases, the Board of Directors will make the final decisions.

Appeal Process

Any contention of charges or fines by the Member must be in writing. The Member has an opportunity for a hearing before a committee of at least three (3) members of Timber Greens Community Association appointed by the Board of Directors who are not officers, Directors, or employees of Timber Greens Community Association, or the spouse, parent, child, brother, or sister of an officer, Director, or employee. If the committee, by majority vote, does not approve a proposed fine or suspension, it may not be imposed. However, the committee should make recommendations to the Timber Greens Community Association Board of Directors to mutually settle the dispute.

All the policies in this enforcement document are in compliance with Florida Homeowners' Associations laws.
